

# The #1 online accounting choice for nonprofits & churches.

*"Aplos is ideal for small nonprofits." - CPA Practice Advisor*

## I'M NOT A BUSINESS

You're a nonprofit. That means book-keeping can be much simpler if you use accounting software built for nonprofits & churches.

Easily accomplish daily tasks like:

- Managing donations
- Tracking money in designated funds
- Creating nonprofit reports

That's why more than 11,000 nonprofits around the world chose Aplos last year alone.

## I WANT TO WORK FASTER

Save time on your accounting so you can spend more time on your mission.

- Create contribution statements in minutes
- Import transactions directly from your bank
- Automatically track donations in your accounting
- Avoid workarounds needed with a business software

That's why users that switch from QuickBooks say they save valuable hours every week.

## I WANT IT DONE RIGHT

You deserve peace of mind that your accounting and donations are correct.

- No accounting skills are necessary
- The software does the hard work for you
- Free unlimited support and training
- Same security as banks
- Easily manage more than one organization if needed

That's why 97% of our customers

Over 11,000 nonprofits chose Aplos last year. Join the movement.

## Made for the needs of nonprofits.

### Why nonprofits choose Aplos over QuickBooks.

Aplos is created specifically for nonprofits, not small business, which means it allows you to easily:

- Manage your finances with true fund accounting to track designated funds.
- Track donations by donor for those manually entered by batch or accepted online.
- Generate contribution statements and robust reporting for all your needs.

### Strong Internal Controls

You can rest assured that your organization is protected with built-in internal controls. Role-based permission levels enable you to control who access various sections of the software and share responsibility with other users. You can also share free access with your accountant or auditor. You can see the user activity log and lock down transactions after completing a bank reconciliation to ensure your records are not altered.

### Frequently Asked Questions:

#### ***Does Aplos offer payroll?***

We support importing payroll from SurePayroll, ADP, and PayCycle so you can quickly post your payroll transaction in your accounting. If you use a different provider you can create a journal entry to track your payroll.

#### ***What reports will I have?***

You can create and export a number of templated reports that follow FASB guidelines including the statement of financial position (balance sheet), statement of financial position (income statement), statement of functional expenses (fund balances), and general ledger. You can also create custom reports you need by using tags to track income and expense for specific campaigns or projects.

#### ***How secure is your software?***

Aplos uses the same level of security as your bank and follows PCI Compliance. Every piece of information you share with our system is securely transmitted using a verified, high-grade security certificate with 256-bit SSL encryption.

# Powerful Features

Made specifically for nonprofits
