

...Childhood Obesity has more than **DOUBLED** in children and **TRIPLED** in adolescents in the past 30 years. In 2010, more than **ONE THIRD** of children and adolescents were overweight or obese. We are currently raising the first generation in history that has a shorter life expectancy than their parents...

While the obesity statistics are discouraging, I am excited to share with you about a non-profit organization that is working hard to combat these issues. Off The Front began in 2010 as a result of three major problems in Fresno: poverty, education, and obesity. As an organization, our goal is to help kids in impoverished areas of Fresno set goals, work hard, and live healthy lifestyles through three programs.

## 4th Grade Earn a Bike Program

Current Programs at Susan B. Anthony, Lowell, Tarpey, Calwa, Pinedale, Addams, & Lawless

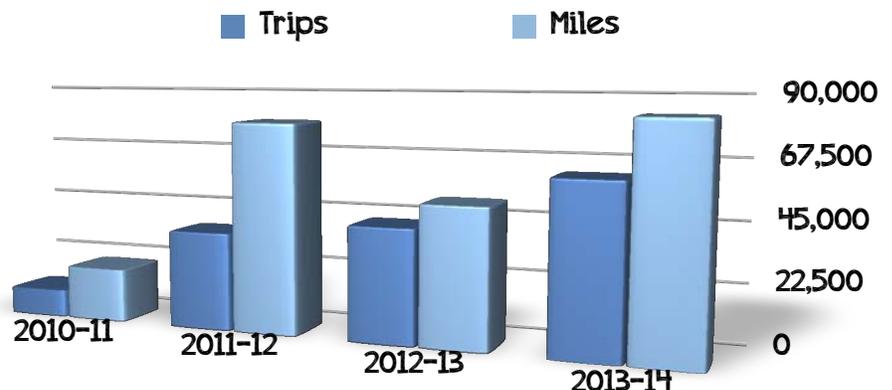

Off The Front aims to help fourth grade students earn a new bike, lock, and helmet through setting customized goals in the areas of academics, character and service, and healthy lifestyles. Points are awarded, tracked, and tallied at the end of the year and serve as a means to keep students motivated and accountable for their work.

## Active Commute

Current Programs at Susan B. Anthony, Lowell, Tarpey, Ahwahnee, & Calwa

At our partnering schools, OTF rewards all students for actively commuting to school. A digital tracking system provides us the opportunity to battle the issue of childhood obesity while providing a fun means to encourage a healthy lifestyle. Miles are tallied and students earn \$.10/mile to spend at our OTF store.

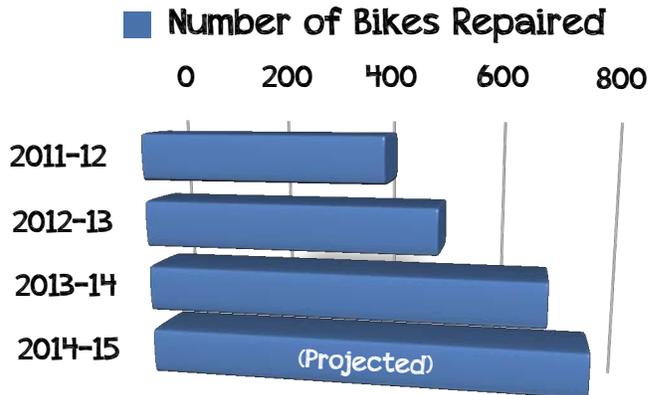

To date, that's over **9 Times** Around the World!

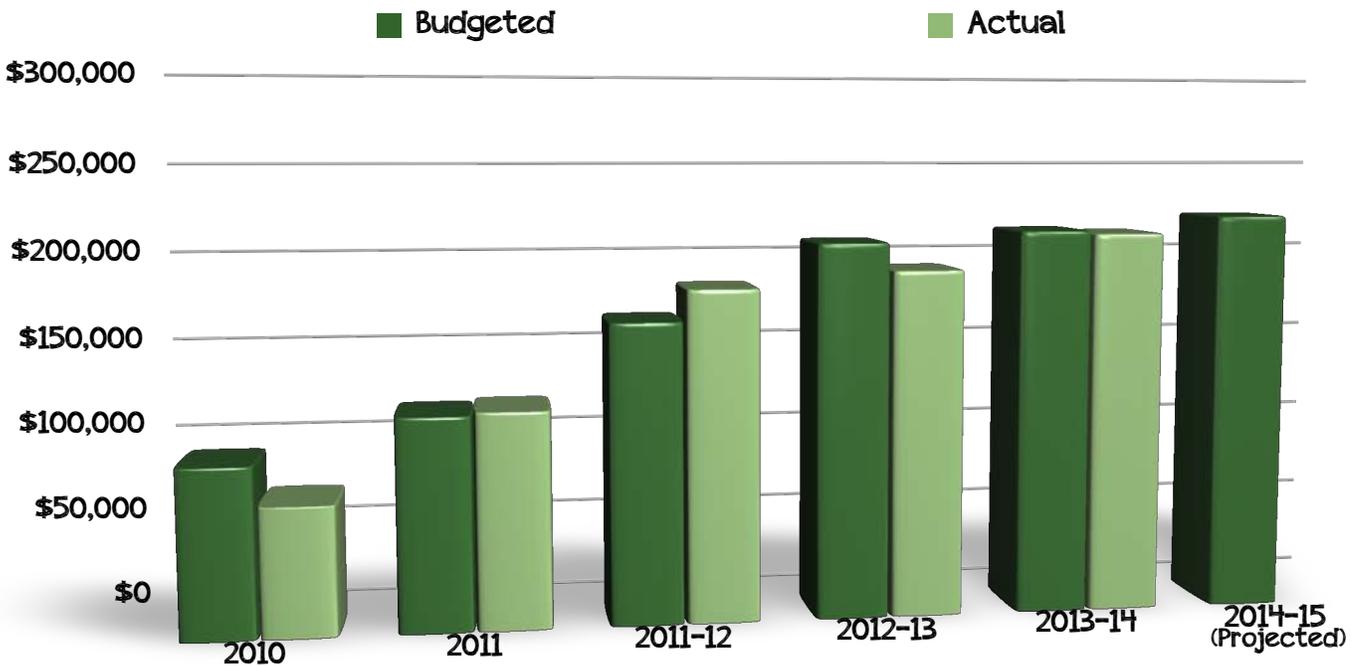

## Bike Repair

OTF offers an opportunity for individuals in our area school communities to have their bikes repaired at no cost. In 2012 OTF purchased a mobile trailer that functions as a traveling repair shop. To date, OTF has repaired a total of 1599 bikes. In addition, OTF trains kids how to repair their own bikes & provides a tool kit once a they have completed a repair clinic.

## Financial Overview

2044 E. Nees Ave. Fresno, CA 93720 - [info@offthefront.org](mailto:info@offthefront.org)

OTF is a 501(c)3 Organization. Donations are tax deductible.
